## INTERNSHIPS

### **Android App Development**

Exposys Data Labs, Virtual

May 2021 - Present

During this internship I build a Real-Time mobile application called MeetUp. I gained a lot of industrial experience while working with this project. This internship truly helped me discover my strength and in improvement in knowledge.

## PROJECTS

### **Schedule IT**

Sep 2020 - Dec 2020

<https://github.com/Antony-madonnaD/ScheduleIT>

I am making an app called ScheduleIT . This app helps in sending the selected image to the selected contact at the scheduled time automatically

### **Notes taking app**

Oct 2020 - Oct 2020

<https://github.com/Antony-madonnaD/NotelT>

It is a simple notes taking app , i made it for studying purpose , From this app we can create and delete simple , multi lined notes.

### **Recipe**

Jul 2020 - Aug 2020

It is a very simple recipe app that has images of the food , when it is clicked it shows the recipe of that food with ingredients .

### **personal assistant**

Dec 2020 - Present

<https://github.com/Antony-madonnaD/Assistant-version-0.1>

This app is called as personal assistant. This is a voice recognition app which can respond to the commands you give, it can open apps, it can set reminder , search on web, explore settings of your mobile and many more with just your voice command.
